

ELECTRIC FORKLIFTS

LIFT MORE WHILE LOWERING COSTS

INCREASES PRODUCTIVITY | FLEXIBLE APPLICATIONS
BENEFITS THE ENVIRONMENT | RAPID ROI

60%

of all forklifts are now electric

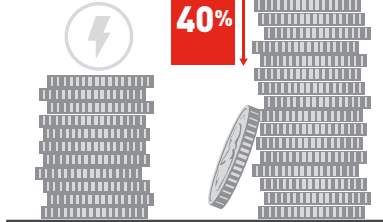

FUEL COSTS up to **80%** LOWER

Electric forklifts save about 40 percent on maintenance costs over internal combustion engine vehicles.

40%

ZERO EMISSIONS

Better working environment and less dependency on air exchange

New lithium-ion batteries run longer, recharge faster, and require less recharging overall.

Lift capacities up to **80,000** Pounds (or 13 elephants*)

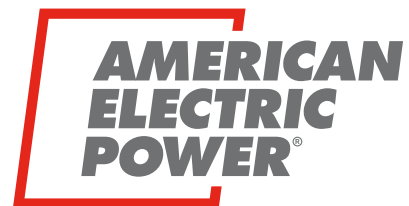

* Assumes six elephants at 6,150 pounds each and one at 3,100 pounds.

AEP powers a new and brighter future for our customers and communities. With electric forklifts, we want to help you improve performance, save on costs and reduce emissions to the environment.

WORKING TOGETHER
